

Environmental Policy

Horner Brothers Print Group wish to operate its business with minimal effect on the environment. To achieve this we are committed to;

- Complying with all relevant environmental legal requirements and with other requirements to which the organisation subscribes.
- Establishing the environmental aspects associated with all new activities and operations with which the business becomes involved.
- Preventing pollution from the processes and associated activities involved in the production of our products.
- Providing training and development to ensure the competence of our employees in achieving the aim for this policy.
- Maintaining an Environmental Management System (EMS) that is certified to ISO 14001.
- Working with the supply chain to reduce the impact of the end to end supply of products.

We will set objectives and targets intended to manage the businesses key identified Environmental Aspects; Waste Management, Volatile Organic Compounds Control, Carbon Emissions, Transport Substrate selection and Energy Consumption.

The key principles applicable to operations and the environment are;

- Do not pollute land, water or air
- Use resources efficiently
- Avoid waste generation

This policy will be made available to the public, The EMS and objective programme will be audited regularly and will be reviewed annually to monitor and guide continual improvement in HBPG activities and associated environmental performance.
